

# Eco-Express Reusable Repack Box Exchange Program

(where available)

Our

## Green Line Service

- Environmentally Friendly
- Sanitized Re-Usable Containers
- No More "reused" shipping boxes
- Easier to Stack
- More Efficient
- 25# maximum weight per container
- User Friendly

Our *Eco-Express* **Green Line Service** program utilizes two (2) sizes of reusable tote containers. Each container is marked and numbered, for use as repacks, replacing card board boxes. Our numbering system assures more efficient delivery.

On your first Express order, the customer retains the totes on the first delivery and the information is noted/tracked. When we return for your next delivery, we pick up the empties while delivering your new order.

The *Eco-Express* **Green Line Service** is another way we can achieve our goal to "Go Green" in regards to the environment and eliminate disposal of boxes by the customer. Ask your Ecologically Sound representative for more details.
